Subject: L-18-0340

Dear Kathy,

I have a guess on a discrepancy in L-18-0340. I was not sure at the submission time, and had no one to ask at that moment. On PMN Page 5 Section B 2. b., I **indicated the monomers of the precursor polymer, instead of the precursor polymer itself.**

Can this be a discrepancy referred to in the letter re incomplete TSCA low volume exemption? If yes, I will have to edit [REDACTED] also.

I am looking forward to talking to you at 3:30.
